

1238.2411.01 – Management of Information Systems

Prerequisites: none

Module 4 – 2015/16

Course Section Details

Day	Hour	Classroom	Lecturer	Email	Telephone	Office
Thursday	15:45-18:30 *Lesson on May 5 will take place 12:45-18:30 *Lesson on May 26 will take place from 09:00- 11:45	Dan David room 303	Professor Gal Oestreicher- Singer	galos@tau.ac.il		320

Teaching Assistant (TA): Naama Tzur naamatzur@mail.tau.ac.il

Office Hours: By appointment

Course Units

Course Units: 1 cu

4 ECTS (European Credit Transfer and Accumulation System) = 1 course unit

By making higher education comparable across Europe, ECTS makes teaching and learning in higher education more transparent and facilitates the recognition of all studies.

Course Description

Information technologies (IT) are fast changing the business of business, and insightful executives of leading companies across the world are increasingly leveraging IT to create value and win competitive advantage. Three major trends are causing executives to rethink

the role of IT in their firms. Firstly, two decades of investments in enterprise systems have digitized many key business processes. Secondly, consumers connecting and collaborating in the online and mobile enabled social graph are leaving a rich data trail that has value for business. Lastly, the Internet of Everything is now a \$14 Trillion industry. The above trends have made the strategic management of IT a complex, but potentially differentiating, core business capability. Thus, as forward-thinking chief executives of tomorrow's businesses, it is essential that you develop an understanding of these trends and the ability to analyse the strategic and economic aspects of leveraging IT for efficiency, innovation and corporate transformation. The course topics will balance the two opposing forces of efficiency and innovation in the context of a globalized environment for the production and consumption of IT.

Course Objectives

By the end of the module students will have learned:

- Understanding the relationship between IT investments, productivity , business value and industry disruption
- Explore organizational transformation that is fostered by the deployment of large IT enabled business models and their financial impacts
- Leveraging big-data business analytics to make smarter and predictive decisions
- Leveraging social media for business advantage

Knowledge and Understanding

- After completing this module the students will have:
- Knowledge of how to plan for and govern IT expenditures
- Manage IT Outsourcing
- Leverage big-data analytics
- Leverage the online social media phenomenon

Key Skills

After completing this module the students will have:

- Financial modelling of IT projects
- Negotiating IT outsourcing contracts
- Fundamentals of predictive analytics
- Fundamentals of leveraging social media

Assessment and Grade Distribution

Percentage	Assignment	Date	Group Size/Comments
6%	2 personal reading assignments	21/4 & 19/5	1

60%	3 group assignments: (1) IT in organizations (2) Big data implementation (3) search	5/5, 26/5 & 9/6	4
10%	Class participation		
24%	Individual concluding assignment	30/6	1

*According to University regulations, a student must be present in every lesson (Article 5).

* The lecturer reserves the right to have a student removed from a course if the student is absent from a class with mandatory participation or did not actively participate in class. (The student will remain financially responsible for the course irrespective of his/her removal from the course)

Course Assignments

The course is highly interactive involving case discussion and group exercises. Please come prepared in advance by reading cases. Groups will be formed for homework assignments as well as in-class activities. Class participation as individuals and through in-class group activity that is assigned is strongly encouraged and rewarded. It forms an important part of the course pedagogy. Large portions of the class are case based. Please come prepared to the class ready for class discussion (some will have leading questions as personal assignments).

Participation is a direct function of your level of mastery of the material—the reading and the cases well as class participation. You are expected to enhance the overall learning environment of the class by coming prepared, asking questions and - when possible - bringing issues to life based on your experience.

Should a student become unable to complete an assignment or course requirement, s/he must notify the TA of the course in advance via email

Grading Policy

As of the 2008/9 academic year the Faculty has implemented a grading policy for all graduate level courses.

This policy applies to all graduate courses in the Faculty, and will be reflected in the final course grade.

Accordingly, the final average of the class for this course (which is a core course) will fall between 78-82%.

Additional information regarding this policy can be found on the Faculty website.

Evaluation of the Course by Student

Following completion of the course students will participate in a teaching survey in order to evaluate the instructor and the course for the benefit of the students and the university.

Course Site (Moodle)

The course site will be the primary tool used to communicate messages and material to students. It is, therefore recommended to periodically check the course site in general, periodically, before each lesson, at end of the course as well. (For example: exam details and updates regarding assignments)

Course slides will be available on the course site.

Please note that topics which are not covered in the slides, but are discussed in class are considered an integral part of the course material and may be tested in examinations.

Course Outline*

Week	Date	Topic(s)	Required Reading	Submission	Comments
1	14/4	IS in organizations			
2+3	5/5 (12:45 – 18:30)	Big data + Implementations +cloud	Amagansett case	Group assignment 1 (ISE model)	Bring a laptop
4	19/5	Outsourcing	P&G case	reading assignment 1	
	No class				
5	26/5 *Lesson to take place 09:00-11:45	Search marketing & Social media strategy	Air France Case Ford Case	Group assignment 2 (Big data) + Reading assignment 2	
6	9/6	The social enterprise	Highnote case	Group assignment 3	

*Subject to change

Required Reading

1. Case: Procter and Gamble: Global Business Services, HBS case
2. Case: Amagansett Funds, HBS case

3. Case: High Note's Freemium Conundrum, SOBACO case
4. CASE: Air France Internet Marketing: Optimizing Google, Yahoo!, MSN, and Kayak sponsored search. Kellogg Case
