EXECUTIVE MBA GLOBAL NETWORK

Kellogg-Recanati

International Executive MBA Program
2017-2019

Northwestern
University

Messages from the Deans

Northwestern
University

As the global economy becomes increasingly complex, organizations need leaders who can build bridges across functions, sectors and countries. With our premier Executive MBA global network, Kellogg uniquely prepares executives with the skills and insights they need to meet the demands of this rapidly changing environment. Our distinctive partnerships with the world's leading business schools, including Coller, give our students a clear advantage: deep knowledge and experience in leadership challenges and practices from around the world

combined with rich, local expertise. Come join Kellogg and Coller, where we educate, equip and inspire the next generation of transformational leaders.

A handwritten signature in black ink that reads "Sally Blount".

Sally Blount '92
Dean, Kellogg School of Management
Northwestern University

The Kellogg School of Management at Northwestern University

develops brave leaders who inspire growth in people, organizations and markets. Based just outside of Chicago, the school is a global leader in management education, renowned for its distinctive thought leadership and pioneering approach to learning. Kellogg offers an innovative portfolio of programs that educate, equip

and inspire leaders who build strong organizations and wisely leverage the power of markets to create lasting value. Students also have access to best-in-class career management services, award-winning faculty and a powerful, responsive alumni network that spans the globe.

It is a pleasure for me to join Dean Sally Blount in introducing the Kellogg-Recanati International Executive MBA Program, a partnership between two leading business schools, one in the USA and the other in Israel.

The Recanati Graduate School of Business Administration at the Coller School of Management is committed to endowing its students and alumni with the managerial tools that they will need in their future endeavors, to teach the latest and most innovative managerial theories and techniques, to provide the knowledge they will need to serve as leaders in the business and public sectors, to instill them with a sense of ethics and social

responsibility, and to involve them in the community.

As a vibrant and active member of the Kellogg international network, I am confident that the Kellogg-Recanati International Executive MBA Program will continue to maintain its position as a world-class program with a particular attraction emanating from the location of its home base.

We invite you to explore it.

A handwritten signature in black ink, appearing to read "ZVIRAN".

Professor Moshe Zviran
Dean, Coller School of Management
Tel Aviv University

Coller School of Management, Leon Recanati Graduate School of Business Administration

is a leading player in the field of business education, where academia meets business. The School brings together professionals and executives at different stages of their careers to acquire academic insight and business knowhow from scholars representing the diversity of management disciplines, as well as from their peers. The School has trained generation after generation of Israel's professional and business elite over the years, adapting

its curriculum to the needs of a global economy in constant change. Coller School of Management is the only AACSB-accredited business school in Israel. Our first and foremost commitment is to the highest standards of professionalism in research and teaching, offering our students the benefits of classic business education from up-to-date perspectives.

The Program

The Kellogg-Recanati International Executive MBA Program

The Kellogg-Recanati International Executive MBA Program is a **joint program** of the top-rated Kellogg School of Management and the Recanati Graduate School of Business Administration at the Coller School of Management. The two-year general management program awards a joint MBA (Master of Business Administration) degree from both Northwestern University and Tel Aviv University.

The Kellogg-Recanati Program meets the needs of mid-career executives preparing for senior management roles in organizations that operate in the international arena, and enhancing their skills and effectiveness.

The program's curriculum integrates all managerial functions and disciplines.

The class schedule allows participants to continue working while studying to master a broad range of functional and managerial skills. In addition, this schedule offers students the opportunity to apply their newly acquired skills immediately in their respective workplace.

Teaching at the program is done primarily by selected senior faculty members of the Kellogg and Recanati schools as well as selected Kellogg Global Network faculty members. They are distinguished faculty members, well known at home and abroad for their research and practical business experience.

The Kellogg Executive MBA Global Network

With seven Executive MBA campuses around the world — based in Canada, Asia, the Middle East, Europe and the United States — the Kellogg Executive MBA Global Network is the largest, most immersive network of its kind.

It offers participants unparalleled access to a broad range of global learning opportunities and the ability to connect professionally and personally with Kellogg's powerful global network of leaders.

Program Structure

The learning modules are structured in one of two formats:

1. **A five-week module** in which classes meet on Thursday afternoons and Friday mornings. Typically, half of the modules are offered in this format, with some courses conducted over two consecutive weeks.
2. **An intensive module** is conducted over a five or six consecutive full days within a single week. Typically eight of the modules, evenly spread through the two years, are offered in this format.

International live-in weeks

Some of the intensive weeks are offered in a live-in format. They include a residential component that allows participants to engage in further classroom discussions, expand their networks of business contacts and develop meaningful friendships. The second year of studies starts with two live-in weeks offered by the network partners and conducted at Kellogg.

Live-in weeks have much more to offer than a typical study-abroad program. As students complete courses in Negotiations, Strategy and Crisis Management, they build relationships with peers from all over the world. With diverse professional backgrounds and national perspectives among them, students have much to teach and learn from one another. Lively classroom discussions spill out into the hallways and continue over dinner.

Global Electives

The Kellogg Executive MBA Global Network offers participants in the Kellogg-Recanati International Executive MBA program a broad range of opportunities to interact with peers from around the world. Not only does a great deal of learning take place during these global experiences, but also participants have the opportunity to greatly expand their own personal networks.

The first opportunity for such a global experience occurs in the summer, with two weeks at Kellogg's lakefront campus in suburban Chicago.

These networking opportunities are further enhanced during the second year of studies, when each program in the Kellogg Global Network invites participants in the other programs to study with its students for one week.

The Kellogg-Recanati program offers two such weeks where participants in other Kellogg programs are invited to study in Tel Aviv.

Over one-third of the courses offered in the Kellogg-Recanati program are conducted in a global setting.

Participants

Ilan Lapidot

CEO
Lapidot Medical
KR17

"Joining Kellogg Recanati is one of the smartest decisions I have made. I was able to implement the knowledge I had gained in the program in my company within the first week. The new relationships I formed with people from various backgrounds was something I could never achieve without the program, and I am enjoying it until today. I believe that the Kellogg Recanati program is the most experienced, global and advanced EMBA out of all the available programs in Israel. It was a true connection to the global business environment."

Orit Mendelson Shoham

Executive MBA Program Director

"Being there and supporting people who have decided to invest in themselves and in their growth is a great privilege. It always amazes me to see how a group of people from all over the world representing so many different backgrounds and cultures becomes a unified group, how they bond, communicate and connect with one another. This unique two-year experience creates something that is very special for everybody involved: the Kellogg-Recanati students who grow and expand their horizons, the teachers and the administrative staff."

Aluf Benn

Editor in Chief
Haaretz Daily Newspaper
KR11

"As a veteran political journalist, I did not come from the typical MBA background, and many people asked me "what are you doing here." But two years at KR were an eye-opening experience. Through the program I gained exposure to people from different career paths, learning about their experiences and dilemmas. Additionally the classes were an invaluable preparation for future management roles."

Participants

The program is designed for carefully selected promising mid-career executives with substantial experience in management. The typical class has representatives from firms of various sizes - from leading multinational corporations to small businesses – and from public and non-profit organizations.

This diversity creates a stimulating learning environment. Over the years, the student body has included participants representing a wide variety of nationalities. A typical class profile includes up to 25% non-Israelis, of which Palestinians are the majority.

Participants are expected to be approved or sponsored by their employing organizations. Executive MBA students are able to apply their newfound skills and ideas in their workplace while studying.

Type of Business

Positions

Nationalities

Sharing Experiences and Insights While Studying

The Kellogg-Recanati program emphasizes teamwork as an essential part of the Executive MBA experience. In general, each class is organized in groups of four to five students who meet to discuss current coursework. Many class projects and case studies are assigned to study groups and require a significant amount of teamwork. Study groups are designed to maximize the diversity of skills found among teammates and create opportunities for peer learning. Before the second year the groups are being rotated.

The study group experience is further enhanced during the global elective weeks, when groups comprise participants from all the programs in the global network. This is an exceptional opportunity to meet and interact with talented fellow executives from every part of the globe, and to build strong and dynamic personal networks that will last a lifetime.

Meitav Investment House
KR09

"Joining the Kellogg-Recanati program was one of the most significant decisions I ever made in my life. I gained professional expertise and practical tools that I utilize in my daily business practice. Through this experience I met wonderful people, with many of whom I remain in constant business and personal relations. During my study sessions abroad I also met exceptional individuals from around the world who received me with great warmth and hospitality. Kellogg-Recanati is a school for life."

Ohad Zuckerman

CEO

UniVerve Ltd.

KR01

"Even though I am one of KR01 "dinosaurs", I am still connected with the KR staff at Recanati and involved in new and exciting initiatives.

KR is not just an MBA program. It's a community which continues to be part of your professional life many years after graduation. You experience the highest standards of leadership and global business and gain enriching friendships for life.

Don't miss it!"

Carmela Avner

VP Global Operations & CIO

Strauss Water

Former Israel Government CIO

KR11

"The great studying experience along two extensive and wonderful two years are very much related to the study groups. The mutual commitment between the team members, the fruitful discussions, sharing of information and knowledge, support and mainly friendship ,made the phrase "one for all and all for one" not a clich'e, but a reality that the method and the faculty team created. The most meaningful gift the program gave me, beyond the intriguing study material, was the connections and friendships created and sustained over time."

Networking

A Lifelong Partnership with the Kellogg Global Network and Your Peers

Kellogg-Recanati students begin their second year by attending a two-week live-in module on Northwestern University's lakefront campus in suburban Chicago. Participants from all other Kellogg Global Network programs – WHU in Germany, Schulich in Canada, Guanghua in Beijing and HKUST in Hong Kong, join Kellogg-Recanati students from Tel Aviv, as well as those from the Kellogg Executive MBA programs in Evanston and Miami to make this module rich in international experience, insights and understanding. At the end of the module, not only has a great deal of learning taken place, but participants have immensely expanded their global network.

This networking opportunity is further enhanced throughout the second year of studies when each program invites participants in other programs of the Kellogg Global Network to study with their students. The Kellogg-Recanati program offers one such week where colleagues from other Kellogg programs are invited to study in Tel Aviv.

The Alumni Network

Upon completing the Kellogg-Recanati International Executive MBA Program, graduates join a network of over 58,000 members of the Kellogg Alumni on six continents, 23,000 members of the Coller Alumni Association, and 800 members of the Kellogg-Recanati Alumni Club. The three organizations provide platforms for social and professional interaction, including alumni directories, alumni e-mail forwarding addresses and an array of meetings and events. There is always an opportunity to make friends and build career or business opportunities with the help of other members of the Kellogg-Recanati alumni family.

The Kellogg-Recanati Alumni Club of the Middle East is one of 80 Kellogg regional alumni clubs located in cities and countries around the world. It is one of the youngest Kellogg Alumni clubs, and it is the only club, around the world, to be distinguished over three consecutive years, by the Kellogg Alumni Advisory Board (KAAB).

KR12 at the International Study Tour in China

Building a Better Tomorrow

Kellogg Executive MBA students and alumni are valuable assets to their communities. On the 1st of April 2005, the Kellogg-Recanati Alumni Club launched its Kellogg-Recanati Cares initiative which includes several projects for the community and an ongoing "Bridge to Business" course at the Bialik-Rogozin school in south Tel Aviv.

Beyond the Classroom

The two schools recognize that the Executive MBA experience transcends the classroom. Luncheon discussions, class breaks, social hours and other activities present informal opportunities for learning about various professions and corporate cultures. Study groups, the speaker series and a host of extra-curricular activities form a portfolio of activities that balance and support the rigorous academic challenge of the classroom.

Life-Long Learning

Education within the Kellogg-Recanati Program doesn't end upon graduation. Alumni are welcome to return and participate in modules with the participants of the current class whenever seats are available after meeting current students needs. Whether wanting to refresh existing skills or discover a "new topic", graduates can enjoy the benefits of an evolving program while expanding professional and personal networks.

The EMBA Seal

The Kellogg Executive MBA Programs are members of the Executive MBA Council of the AACSB, the association that sets the academic standards for the accreditation of MBA programs.

KR15 and their international colleagues at the Hong Kong global elective, December 2011.

Curriculum

Prof. Aharon (Roni) Ofer

Professor of Finance
Coller School of Management
Tel Aviv University

"Part of my job as a teacher in the program is to link the wealth of student experience to the financial concepts and knowledge that I bring to class. With their background and positions, participants are able to relate directly to what they have learned, and in many cases, they put it to work immediately. It is this interaction between knowledge and experience that makes teaching executives so rewarding for me. Learning from multinational experience is what differentiates an International EMBA and what makes the Kellogg-Recanati experience particularly exciting."

Elite Elkon

Partner

Gornitzky & Co., Advocates and

Notaries

KR08

"Practicing commercial law banking and financing law means walking the borderline between business and law. The knowledge and insight I gained at Kellogg-Recanati make my journey much easier, both as a practicing attorney and as a partner at Gornitzky & Co. My deeper understanding of my clients' goals and needs results in a more business-oriented approach to my practice. My education in management and marketing allows me in make a significant contribution in advancing the business objectives of my law firm."

Liana Gelikas

COO and Executive Consultant

Peaks Ventures Consulting Ltd.

KR09

"The Kellogg-Recanati IEMBA program is an excellent program, combining high academic standards, international exposure, a great atmosphere and a platform for creating relationships, business networking and new friends. The program provides the executive manager with relevant and updated professional information, case studies and, perhaps more importantly, tools to assist the manager in better understanding contracts and the legal aspects of running business, making better financial analyses and decisions, building strategies and marketing acumen".

Program Outline

Courses are selected from the list of topics detailed below. While core courses are rarely replaced, elective and advanced course offerings change from year to year.

A Typical Sequence and Schedule of Study 2017-2019

Year One

Orientation Meeting

Workshops:

- Mathematics
- Introduction to Statistics

Intensive Module 1: October

Strategic Management Foundations

Marketing Management

Module 2: November - December

Analytical Approach to Uncertainty

Micro Economics

International Business

Intensive Module 3: January

Managers and the Legal Environment

Leadership and Organizations

Module 4: January - February

Managerial Statistics

International Business - including the Study Tour

Module 5: March

Operations Management

International Business

Module 6: April - May

Financial Reporting Systems

Managerial Economics

Module 7: May - July

Corporate Finance & Investments (Part I)

Marketing Strategy

Financial Information for Management

Planning & Control

Year Two

Intensive Module 8+9

August, Live-in, at Kellogg

Negotiation Strategies

Strategic Crisis Management

Strategic Marketing Decisions

Advanced Operations

Module 10: September - October

The Macroeconomic Environment

Corporate Finance & Investments (Part II)

Optional: Global Elective module in Canada, October

Module 11: November - December

Human Resource Strategies

Optional: Global Elective module in Beijing, November

Optional: Global Elective module in Hong Kong, December

Module 12: January - (International Module)

Product Management for Technology Companies

Management in a Data Driven Business Environment

Module 13: February

Strategic Financial Management

Optional: Global Elective module in Kellogg Evanston, February

Intensive Module 14: March - (International Module)

Intellectual Capital Management

Venture Capital

Optional: Global Elective module in Miami, April

Optional: Global Elective module in Germany, May

Module 15: June

Leading the Strategic Change Process

Curriculum

The curriculum integrates all managerial functions and disciplines with emphasis on the international aspects of business administration. It is organized in two tiers of courses, starting with an **MBA core** and continuing with **advanced** and **elective** courses. Participants are required to complete 28 courses. Some of the elective courses are offered during the global elective weeks on the Kellogg global partners schools.

Preparatory Workshops

Preparatory workshops are offered in the areas of mathematics and statistics, and bring students up to the requisite common level of basic knowledge needed to begin the program.

Below is an expanded list of courses and topics covered by the Kellogg-Recanati program, including the global electives.

Speaker Series

Balancing theory and practice is characteristic of the Kellogg-Recanati program, which encourages its International Executive MBA classes to take advantage of the schools' close ties with the business community. Faculty and participants invite leaders of industry, government and non-profit organizations, as well as management experts, to speak at extra-curricular activities.

Strategy

Strategic Management Foundations explores economic principles of business strategy and develops an analytic framework for identifying and evaluating alternative strategies.

International Business gives an insightful and detailed understanding of significant business environments today and tomorrow. The course takes place in the region of study (e.g., the Far East, East Europe), utilizing local expertise. It focuses typically on formulating and applying "real-world" strategies in a selected region of the world. Commercial strategies are examined from the perspective of management decision making, for instance: Negotiation strategies; entry strategies; pricing strategies; and strategies for dealing with governments and state-owned enterprises. In recent years this course has examined specifically China and India as two leading emerging markets.

Deal Making in China and Asia offered by Kellogg-HKUST

Family Enterprise: Success and Continuity offered by Kellogg Miami

Strategy Beyond Markets offered by Kellogg Miami

West Meets East: Strategic Implications for Managing in the 21st Century offered by Kellogg-Guanghua

Innovation Strategy & Management offered by Kellogg Evanston

Strategies for Growth offered by Kellogg Miami

Curriculum

Accounting

Financial Reporting Systems introduces generally accepted accounting principles and concepts along with the preparation and analysis of financial statements.

Financial Information for Management Planning and Control covers the use of financial information in management decision making. Topics include strategic profitability analysis, managerial incentives and performance-measurement. The use of financial information for making decisions with regard to intangible assets, such as research and development and brands, will also be discussed.

Organizational Behavior

Leadership and Organizations uses cases and simulations to explore how theories of behavior apply to individuals and groups within organizations.

Leading the strategic change process focuses on key tasks in leading the strategic change process in organizations, creating a shared understanding of the present and desired states of the organization, creating a shared urgent need for change, a change vision, and the belief that change is possible and finally leading the change transition process.

Negotiation Strategies develops negotiation and dispute-resolution skills through simulations set in dyads, groups, and multilateral contexts within and between organizations and across cultures.

Strategic Crisis Management provides managers with conceptual tools to successfully master high-pressure, complex crisis scenarios. Topics include issue and media management, dealing with activists and interest groups, and surviving legal, legislative, and regulatory challenges.

Human Resource Strategies provides an understanding of HR issues from the perspective of top-tier executives and policy-makers rather than from the perspective of the HR manager. Day-to-day human resource quandaries are discussed in the context of mainstream economic, psychological and sociological theory, all with an eye towards understanding the impact of such decisions on employees, organizational effectiveness, and the broader market and social context.

Incentives, Organization and Strategy offered by Kellogg Evanston

Leading High Impact Teams offered by Kellogg Evanston

Innovation Strategy and Management offered by Kellogg Evanston

Value Investing from an Economic Perspective offered by Kellogg-HKUST

Visualization for Persuasion offered by Kellogg Evanston

Managers and the Legal Environment studies the legal environment in which international business organizations operate. The orientation of this course is practical employing actual cases and discussing real world situations. Topics include: Legal forms of business organizations; contracts and cross-border contracts; international sale of goods; writing an international services contract; dispute resolution mechanisms; distinguishing between common law, civil law, and other legal systems around the world; and how to optimize the use of inside and outside counsel.

World Economy offered by Kellogg Evanston

Biases and Forecasts Under Deep Uncertainty offered by Kellogg Miami

Creating and Managing Strategic Alliances offered by Kellogg Miami

Global Economic Development & the Business Environment in Europe offered by Kellogg-WHU

Business Foundation Disciplines

Managerial Economics explores the nature and determinants (including market forces) of decisions on profit-maximizing production and pricing.

The Macroeconomic Environment inspects the economic mechanisms and trends as well as cultural, social and political environments that shape economies, with an emphasis on countries of the Middle East.

Analytical Approach to Uncertainty introduces elementary probability theory as a tool for modeling uncertainty in business, with illustrations from decision theory and statistics.

Statistical Decision Analysis explores the use of sample data for purposes of estimating, predicting, forecasting and decision making.

Marketing

Marketing Management introduces the market-driven company and customer-focused organization, and presents current theories and practices of marketing management. It examines the topics of new product development, marketing resource allocation and competitive strategy.

Strategic Marketing Decisions uses a computer simulation to give students the experience of running a business, making marketing decisions and gaining support for their recommendations. Students working in teams are given a business to run. The challenge is to apply marketing concepts to deliver strong financial results and create a solid, ongoing business over the course of the simulation.

Marketing Strategy focuses on developing, refining, and executing the

organization's story in the marketplace. Key topics include identifying the appropriate target segment and the most effective positioning within that segment in a competitively dynamic context.

Product Management for Technology Companies equips students with the frameworks, tools and direct experience to become effective technology product managers (whether as entrepreneurs or intrapreneurs). Students will gain hands-on experience via an industry-sponsored project and targeted cases—including several cases developed specifically for this course

Luxury Brand Management offered by Kellogg-WHU

Marketing Analytics offered by Kellogg Miami

Consumer Led Growth offered by Kellogg Evanston

Finance

Corporate Finance & Investments explores the strategic decisions that an organization makes leading to capital spending. The risk element in financial decision making and the financial instruments that have evolved to reallocate risk in the economy are discussed.

International Economics and Finance studies the determination of exchange rates and interest rates and examines the nature and management of foreign exchange risks.

Strategic Financial Management examines important concepts and principles of financial management, using both a review of theory and cases. The course emphasizes valuation skills as a means to bring together cost of capital, financing, and operating issues faced by the firm.

Risk Management introduces a holistic

framework for identifying, quantifying and managing risks facing an organization, and for integrating it into corporate strategy to drive competitive advantage.

Investment Banks, Hedge Funds and Private Equity offered in Kellogg Miami

Finance in China offered by Kellogg-Gianghua

Mergers & Acquisition offered by Kellogg-Schulich

The Analytics Edge offered by Kellogg-WHU

Operations & Technology Management

Operations Management examines some of the basic principles of managing the production of goods or services, and studies some useful tools. The course emphasizes tools and principles that are equally useful in service and manufacturing sectors.

Advanced Operations concerns with the executive-level operations decisions, such as the expansion or rationalization of real assets that dictate the operational footprint, capabilities, and investment needs for years to come. The course provides you with a framework to formulate an operations strategy and analyze, value, and optimizes the key decisions involved.

Intellectual Capital Management focuses on the use of ideas and knowledge as explicit forms of competitive advantage in the information economy. The most secure form of this intellectual capital is one which can be turned into a property right - intellectual property. This course surveys the forms of intellectual property and links the effective procurement and deployment of intellectual property with successful business strategies.

Venture Capital introduces the Venture Capital (VC) industry. The players of the industry and their respective roles will be presented and discussed during this course. Participants will experience the life cycle of investment decision making and will learn the VC game plan and best practices of the industry. The course will allow the participant to be a knowledgeable and effective "player" if he or she eventually considers a VC-backed financing for their venture, or decides to be a part of the industry.

Enterprise IT Strategy & Digital Transformation offered by Kellogg-Schulich.

The AACSB Logo

Coller School of Management is the only school in Israel to be accredited by AACSB International – the highest level of accreditation for a business school.

Faculty

Prof. Brian Uzzi

Richard L. Thomas Professor of Leadership and Organizational Change
Co-Director, Northwestern Institute on Complex Systems and Network Science (NICO)
Kellogg School of Management, Northwestern University

"The Kellogg-Recanati program is unique and powerful because it has found the right balance between networks and knowledge. It is relatively small – just 50 students per class – increasing knowledge transfer and specialized attention among the students and faculty alike. Yet, it draws on a very wide diversity of executive backgrounds from the leaders of the largest corporations to exceptionally successful entrepreneurs, politicians to non-profit organizers, and professionals from real estate, tech, two medicine and law. If most executives are six degrees of separation from the riches knowledge and influence contacts, the KR program will put you at two degrees of separation."

Prof. Gadi Ariav

Associate Professor Management of Tech & Information
Head of Max Perlman Center for Global Business and Head of Business Consulting Specialization
Coller School of Management
Tel Aviv University

"The course on the management of international business is smack in the core of the KR international Executive MBA program. While the KR curriculum covers quite a few "MBA languages", this distinctive experience in the KR program not only introduces the language of international business development, but it also offers the participants an opportunity to actually talk in this language with the management of real globally oriented enterprises in a foreign business territory (India, in recent years). These challenging strategy discussions are unparalleled precious learning opportunities".

Prof. Larry Franklin

Adjunct Professor of Finance and Law
Kellogg–HKUST Executive MBA
program
Hong Kong University of Science & Technology

"As a teacher who belongs to the faculty of HKUST, Kellogg's global EMBA partner, I draw on my extensive research, consulting and teaching experience, and deliver real-world, cutting-edge content to the class. I find the Kellogg-Recanati students to be very bright, highly inquisitive, and as challenging to teach, as the EMBA students I teach in leading universities around the world. The Kellogg-Recanati Executive MBA program has an excellent reputation, and it is well-deserved."

Faculty

Faculty

Teaching at the Kellogg-Recanati IEMBA Program is done primarily by selected senior members of the Kellogg Global Network and Coller faculties. The community of teachers is an esteemed group of scholars and practitioners, which provides a rich source of international experience in professional management problems and practices. Faculty members combine real-world and academic knowledge of management problems to augment their theoretical training.

BRIAN UZZI
(Northwestern University)
Associate Professor of Management and Associate Professor of Sociology. Ph.D. from the State University of New York at Stony Brook in Sociology. Areas of Expertise: Behavioral Finance, Creativity and Innovation, Innovation, Social Media, Social Networks.

ADMISSION

Requirements

To be considered for the program, applicants must have:

- An undergraduate degree with a minimum grade of 75 (equivalent to a GPA of B), or the equivalent for candidates from schools or countries with different grading systems.
- Substantial managerial and professional experience (seven years or more) and a senior position in the organization.
- Time sponsorship and/or tuition sponsorship by the employing firm.
- At least two letters of recommendation.
- All applicants must prove their English-language proficiency validated through an Amir or TOEFL exams. Minimum score required in the TOEFL exam is 29 and in the Amir test is 234. Exams must be taken before October 1st, 2017.

Exceptions:

1. Students who completed an American High School or an English speaking country high school.
2. Holders of a BA degree from a recognized institution, where language of instruction is English and it is located in an English speaking country.
3. Holders of a BA degree from an Israeli recognized higher education Institution.

The Admissions Committee considers the merit of each application and takes into account cases of exceptional professional experiences and past academic performance.

Admission Process Considerations

Admission to the program is competitive. Admission decisions are based on the applicant's entire portfolio, including academic achievements, nature of professional experience and potential, position, letters of recommendation, language fluency, and GMAT scores – if submitted.

In addition to academic potential, the admission committee considers these factors:

- Does the applicant's organizational sponsor consider that he or she has outstanding promise and potential within the organization?
- Does the applicant have, or will he or she soon have, a position of executive responsibility that makes the program of value in furthering his or her career?
- Does the applicant have both the time and the motivation to make a two-year commitment to attend classes and prepare assignments?

The admissions committee seeks to ensure diversity of skills and backgrounds, while forming a class with participants of comparable levels of managerial experience.

Admission priorities are given to applicants whose sponsors cover their entire tuition fee.

The Admission Process

All application forms are available on the programs website.

The application and accompanying material, as detailed in the Useful Information for the applicant insert to this brochure, should be submitted approximately five months prior to the beginning of the academic school year. Early application is advisable, since enrollment is limited and qualified applicants are accepted on a first-come first served basis.

Upon receipt and basic review of these materials, we will contact you and schedule an hour-long academic interview as well as alumni interviews.

Self-employed applicants and applicants whose employers cover only part of their tuition can also be admitted. They may, however, be asked to provide additional financial documentation.

Cost of Participation

Tuition covers the cost of courses, study facilities, books and supplies for the entire curriculum. It also includes Friday parking permits, parking vouchers and light lunches and refreshments for the duration of the program, as well as daily lunches during the intensive modules, and housing and meals during the live-in weeks abroad. Each participant is entitled to join one Global Elective week abroad.

The participants pay airfare and ground transportation for the live-in weeks that are conducted abroad as well as the cost of obtaining visas.
