

December 2023

Dr. Moshe Unger

mosheunger@tauex.tau.ac.il, munger@stern.nyu.edu,
moshunger@gmail.com

Summary

Moshe holds PhD. (Software and Information Systems Engineering), M.Sc (Software and Information Systems Engineering), and B.Sc (Software Engineering) from Ben-Gurion University (BGU) of the Negev, Israel. His research work focuses on personalization, Data Mining, Machine Learning and Recommender Systems with emphasis to context inference with deep learning techniques and its usage in recommender systems. He is currently an assistant professor at the Coller School of Management, Tel Aviv University. Before joining Tel-Aviv University Moshe was a post-doctoral research scientist at NYU Stern School of Business and an associate research scientist at the NYU Stern Fubon Center of Technology, Business, and Innovation. Prior to his Ph.D. studies, he held various engineering and management positions in the high-tech industry and collaborated with various high-tech companies, such as Dell EMC, Deutsche Telekom and Spotify.

Research Interests

Recommendation systems, big data, machine learning, deep learning, cyber security.

Education

2014 – 2018 PhD in Software and Information Systems Engineering, Ben-Gurion University, Israel.

2012 – 2014 MSc in Software and Information Systems Engineering, Ben-Gurion University, Israel.

2009 – 2012 BSc in Software Engineering, Ben-Gurion University, Israel.

Work Experience

2022 – Today *Assistant Professor of Management of Technology and Information Systems*
Coller School of Management, Tel Aviv University

2020 – 2021 *Associate Research Scientist*
NYU Stern Fubon Center for Technology, Business, and Innovation

2018 – 2020 *Postdoctoral Researcher*
New York University, Stern School of Business

2013 – 2018 *Research Assistant, Project Manager*
Deutsche Telekom Innovation Laboratories, Beer-Sheva, Israel Cyber Security
Research Center at Ben-Gurion University (BGU)

Teaching Experience

- Introduction to Big Data Analytics (Fall, Spring 2022), Tel-Aviv University
Evaluations: 6.4 (out of 7)
- Recommender Systems (Spring 2022), Tel-Aviv University
- Data Mining and Business Analytics – Tech (Fall 2020), NYU
- Analysis and Design of Information Systems, Ben-Gurion University
Evaluations: 4.3, 4.6 (out of 5)
- Principles of Programming Languages, BGU
Evaluations: 4.5 (out of 5)
- Introduction to Information Systems, Shamoon College of Engineering, Israel
- Analysis and Design of Information Systems in Object Oriented Approach, Shamoon College of Engineering, Israel

Publications in Refereed Conferences

Work Under Review

- Unger, M., Cohen, B., Brost, B. & Tuzhilin, A. Deep Multi-Objective Multi-Stakeholder Music Recommendation (Joint work with *Spotify*)- *Submitted to Management Science October 2023*
- Unger, M., Bauman, K. & Tuzhilin, A., HyperCARS: Using Hyperbolic Embeddings for Generating Hierarchical Contextual Situations in Context-Aware Recommender Systems)- *Major Revision R&R (ISR)*

Chapters in Books

- Gediminas Adomavicius, Konstantin Bauman, Alexander Tuzhilin and Moshe Unger. Context-Aware Recommender Systems: From Foundations to Recent Developments, Recommender systems handbook (2021)

Conference Participation

- The 17th ACM Conference on Recommender Systems (RecSys), Singapore, 18th-22nd September 2023 (*CARS Workshop Organizer*)
- The 39th IEEE International Conference on Data Engineering (ICDE 2023), Anaheim, California, USA, April 3 – 7, 2023
- The 16th ACM Conference on Recommender Systems (RecSys), Seattle, WA, USA, 18th-23rd September 2022 (*CARS Workshop Organizer*)
- Statistical Challenges in Electronic Commerce Research (SCECR), June 21st - June 22nd, 2022, Madrid, Spain
- The 15th ACM Conference on Recommender Systems (RecSys), Amsterdam, Netherlands, 27th September-1st October 2021 (*CARS Workshop Organizer*)
- The 14th ACM Conference on Recommender Systems (RecSys), Online, Worldwide, September 22-26, 2020 (*CARS Workshop Organizer*)
- The 29th Workshop on information technologies and systems (WITS 2019), December 18-20, 2019, Munich, Germany (*CARS Workshop Organizer*)
- International Conference on Information Systems (ICIS), December 15-18, 2019, Munich, Germany
- Conference on Information Systems and Technology (CIST), October 19-20, 2019 (Seattle, WA)
- The 13th ACM Conference on Recommender Systems (RecSys), Copenhagen, Denmark, September 16-20, 2019
- The 25th ACM Conference on User Modelling, Adaptation and Personalization (UMAP), Bratislava, 2018
- 11th ACM Conference on Recommender Systems (RecSys), Como, Italy, 2017
- 10th ACM Conference on Recommender Systems (RecSys), Boston, 2016

- 2016 IEEE International Conference on Software Science, Technology and Engineering (SWSTE), Israel
- 2016 IEEE International Conference on Big Data, Washington
- 9th ACM Conference on Recommender Systems (RecSys), 2015
- 2014 ACM International Joint Conference on Pervasive and Ubiquitous Computing (UbiComp), 2014

Patents

- Recommendation System and Method for a Mobile Device Based on Raw Data Which is Collected from Sensors of the Mobile Device.
- A Method for Extracting Latent Context Patterns from Sensors.
- Designing Context Aware Recommendations Systems Based on Latent Contexts.
- Model for Identifying Attack Propagation Patterns in a Monitored Sensor-Based System.
- Method for Classifying Attack Sources in Cyber-Attack Sensor Systems.
- Prediction System Configured for Modeling the Expected Number of Attacks on a Computer or Communication Network.

Academic Services

Referee for MIS Quarterly (MISQ), Information Systems Research (ISR), International Conference on Information Systems (ICIS), IEEE Transactions on Knowledge and Data Engineering (TKDE), Knowledge-Based Systems, Transactions on Data Science, RecSys, IEEE Access
